PROFESSIONAL SUMMARY

Results-driven Fullstack Developer with 1+ year of experience building scalable web and mobile applications using **Next.js, TypeScript, Laravel, and Go**. Experienced in integrating payment gateways (xendit, Midtrans), optimizing backend performance, and developing production-ready systems. Strong problem-solving skills with a focus on clean architecture, performance, and user experience. Able to work independently in fast-paced remote environments.

WORK EXPERIENCE

Fullstack Developer

Pintartek, jakarta indonesia, Remote **October 2025 – April 2026**

- Architected and deployed scalable web applications using Next.js and Flutter, achieving Lighthouse scores of 95+ and improving user experience.
- Engineered a reusable design system using Shadcn UI, reducing UI development time by 40% and ensuring consistency across multiple products.
- Optimized backend API integrations, reducing response time and increasing data processing efficiency by 15%, improving overall system performance.
- Refactored legacy CodeIgniter systems into modular architecture, reducing bugs by 60% and enhancing long-term maintainability.

Web Developer

HAFECS, banjarmasin indonesia **July 2025 – Dec 2025**

- Developed a dynamic, reactive form builder using Laravel Livewire and Tailwind CSS for internal productivity tools.
- Translated complex Figma designs into pixel-perfect, responsive components, ensuring cross-device compatibility.
- Improved system accessibility and visual consistency by refactoring reusable UI components.
- Integrated secure payment gateways to facilitate seamless automated transactions for webinar and digital course purchases.
